December Cranberries

Nutrition Info
One cup of cranberries contains 50 calories.

Cranberries are an excellent source of vitamin C and fiber.

Fun Facts
Cranberries were first used by Native Americans for food, fabric dye, and medicine.

Only 5% of cranberries are sold fresh. The remaining 95% are turned into cranberry juice, cranberry sauce, and other cranberry products.

Wisconsin is the nation’s #1 cranberry producer!

Another name for cranberries is "bounce-berries" because they bounce when ripe.

Uses
Add fresh cranberries to smoothies or muffins, or dried cranberries to salads.

Cranberries can be a bit tart on their own, but they pair well with sweeter fruits such as apples!

Family Friendly Activities
Read “Cranberry Thanksgiving” by Wende and Harry Devlin.

While cooking cranberries, watch them change. They will float and pop!

Have your child help rinse fresh cranberries. They can even try to bounce a cranberry to see if it’s ripe!
